

BLESSING OLOYEDE

Software Engineer

Blessinoloyede@gmail.com • <https://blessingoloyede.onrender.com> • Ogun, Nigeria

Summary

As a Dynamic Full-Stack Web Developer, I blend technical expertise and a background in agricultural science. I transitioned into software development through a rigorous one-year internship at EduTAMS, mastering tools like JavaScript and PHP. I have proven the ability to build user-focused applications while managing legacy code projects at EduTAMS, and am passionate about leveraging technology to solve real-world challenges

Experience

EDUTAMS & FREELANCE Full-Stack Software Developer A software development company focusing on educational management - Responsible for developing and implementing features on two legacy applications for educational management - Working on EDUTAMS essential_v2 as junior dev, a legacy project used across all approved primary and secondary schools in Ogun State - Collaborated with other great minds on projects like the SBA Reads (A book platform to purchase and sell books) and Farm Monitor (A farm management and loan source for farmers platform) for The Nebulla - Partnered as stakeholder on a project with friends to work on a cooperative management system, currently used by two cooperatives in Ogun State - Contributing to various open sources projects and collaborating with other developers	Ogun, Nigeria 08/2025 - Present
